Between Jan 1 – June 30, 2017:

- There were no incidents of misuse reported
- There were no violations of policy/procedure in the use or activation of the cameras or in the retention of footage.
- Because of necessary camera upgrades, our camera shrouding system no longer worked. The SituCon covers did not fit with the new cameras, therefore, since July 2015 the cameras have been functioning without shrouds, therefore operating 24 hours/day.

Policy/Procedure

Since the implementation of the CIMS Camera Program:

- There have been no incidents of misuse reported
- There have been no violations of policy/ procedure in the use or activation of the cameras or in the retention of footage. (This does not account for non-functioning shrouds which require the camera to remain on).
